Introduce Company

SP Engineering and Supply Co., Ltd,

we continue to improve ourselves through acquiring a broad range of knowledge for the various filtration solution provided by our partners who are global leading Filters manufacturers.

Our philosophy in "**SERVICE**" is to provide – quality, innovative, cost-effective products – "**on-time, just in time - every time**".

Over these years, we are grateful to have Served many valuable customers, from various industries, each having their unique filtration needs. We look forward to serve you with our passion back by an extensive range of Quality Filtration products.

SP ENGINEERING AND SUPPLY CO.,LTD.
บริษัท เอสพี เอ็นจิเนียริ่ง แอนด์ ซัพพลาย จำกัด

SP Engineering and Supply Co., Ltd.

is a company registered in Thailand,
established in 2016.

We provide dedicated and professional
support in Asia and we are supported
by a network of principals in the region
to provide sale & technical support to
our valuable customers.

**PRODUCT
CATALOGUE**

■ **Authorised OEM Valve Service and Repair Center**

- We provide OEM Control Valve Service & Calibration with genuine spare parts
- We provide Valve Automation & System.
- We provide On-site Commissioning and support

Authorised OEM Heat Exchanger Service and Overhaul Center

- We provide OEM Heat Exchanger Overhaul Service with genuine spare parts

Exclusive Agencies

FLOWSERVE offers an unparalleled range of valves, standing out as a leader in the industry. At the heart of every valve manufactured by Flowserve is a commitment to extended service life, safe operation, and environmental protection. **FLOWSERVE** is also proud to offer the industry's most comprehensive range of valves, actuators, positioners, controls, switches, and accessories. With **FLOWSERVE**, you can trust that your valves are built to last, ensuring reliable performance, operational safety, and environmental responsibility.

With a rich legacy in the realm of steam, condensate, and fluid solutions, **GESTRA** has been at the forefront of designing, engineering and manufacturing innovative products. **GESTRA's** mission is to assist customers in attaining sustainable operations by leveraging our industry knowledge and technical proficiency. **GESTRA** collaborate closely with clients across the globe, aiming to enhance safety, productivity, and efficiency. Diverse range of offerings includes cutting-edge products like Boilers, Non-Return (check) valves, Control Valves, Steam Trap & Strainers, all tailored to meet the unique needs of our valued customers.

NORGREN stands at the forefront of motion and fluid control technologies, setting the global standard. In every instance where precision, speed, and unwavering engineering reliability are paramount, **NORGREN** surpasses expectations by providing extraordinary solutions that elevate the productivity and efficiency of our customers' equipment. **NORGREN** extensive product portfolio encompasses IMI Norgren, IMI Buschjost, IMI FAS, IMI Herion, and IMI Maxseal, offering a comprehensive range of options. With the unwavering commitment, empowering our customers to conquer the most formidable engineering challenges, ensuring unwavering dependability, safety, and efficiency.

Exclusive Agencies

OsecoElfab, a unified brand, presents an extensive range of rupture disc products that amalgamate the best offerings from Elfab and Oseco. With a commitment to excellence, **OsecoElfab** stands as the industry leader in providing pressure safety solutions that are not only highly dependable but also incredibly user-friendly. **OsecoElfab** bespoke manufacturing capabilities cater to both singular, customized solutions and large-scale assemblies by offering high-integrity products.

TRANTER is an American based global manufacturer of gasketed and welded plate heat exchangers and an aftermarket service provider for the plate heat exchanger industry. Significant manufacturing, research, design engineering and product development activities are based in the USA, Brazil, Sweden, China and India. **TRANTER** heat exchangers stand out for their unique approach to heat transfer instead of using tubes, they rely on plates. **TRANTER** heat exchangers are the epitome of compactness, efficiency, and cost-effectiveness.

VALFONTA specializes in the development and design of valves catering to a wide range of applications, with a particular emphasis on the Oil & Gas, Chemical, Petrochemical, Pulp & Paper and Energy sectors. **VALFONTA** are meticulously crafted to meet the highest international standards, with an unwavering commitment to quality. This dedication ensures that our customers receive a complete guarantee and seamless operation of their processes. **VALFONTA** offerings include Pressure Reducing Valves and Back Pressure Regulators. Furthermore, they prioritize the creation of environmentally friendly facilities and products, reflecting our deep concern for the planet.
